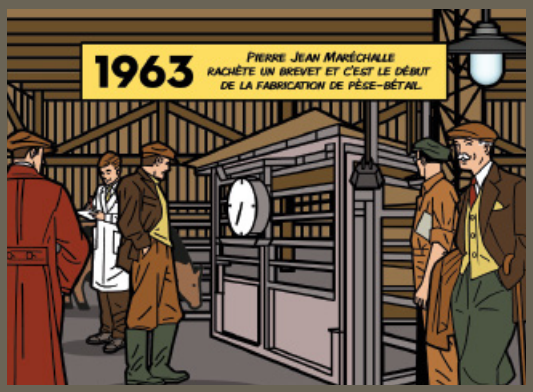
EDITO

Cette année, nous avons le plaisir de vous inviter à un voyage dans le temps. Laissez-vous conter l'histoire de Marechalle Pesage de sa création à nos jours.

1947 Pierre Joseph Maréchalle, balancier.

1952 Pierre Jean, le fils de Pierre Joseph, se lance dans la fabrication de bascules-ensacheuses pour charbon.

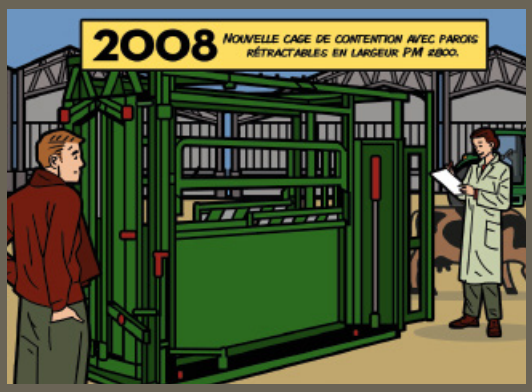


1963 Pierre Jean Maréchalle rachète un brevet et c'est le début de la fabrication de pèse-bétail.

Sur les salons agricoles, les pèse-bétail font fureur. Les gens font la queue pour passer commande. Pierre Maréchalle commence à se faire connaître et Maréchalle devient une marque de référence !
MARECHALLE PESAGE

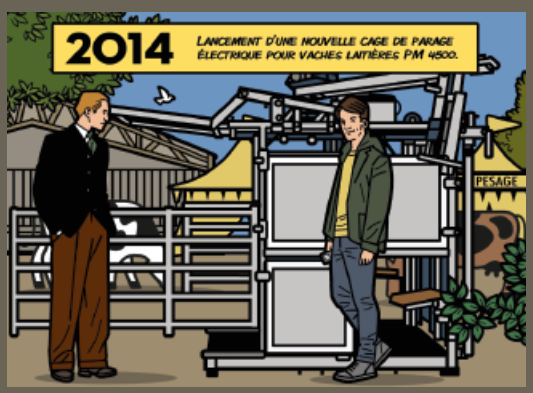
Cage de contention et de pesage PM 2400 : nos cages sont conçues pour le bien-être des animaux et l'éleveur peut travailler seul en toute sécurité !

1993 Pierre Claude, fils de Pierre Jean, créé avec sa femme Lydie, Maréchalle Pesage Métrologie. Instruments de pesage industriel, pont-bascule, réparation.



2008 Nouvelle cage de contention avec parois rétractables en largeur PM 2800.

2013 Innovation d'une cage de pesée autonome, la PM 6000 Liberty. Prix Innov'Space 3 étoiles pour ce produit.
Innov'space



2014 Lancement d'une nouvelle cage de parage électrique pour vaches laitières PM 4500.
PESAGE

2015 Déménagement dans notre nouvelle usine de Chauny, Avenue Jean Jaurès. Notre atelier est plus grand et nos bureaux plus fonctionnels. Nos produits évolueront toujours plus !

3016 En route pour de nouvelles aventures !
MARÉCHALLE

HANDLING

WORK IN TOTAL SAFETY
WITH A SUITABLE HANDLING EQUIPMENT

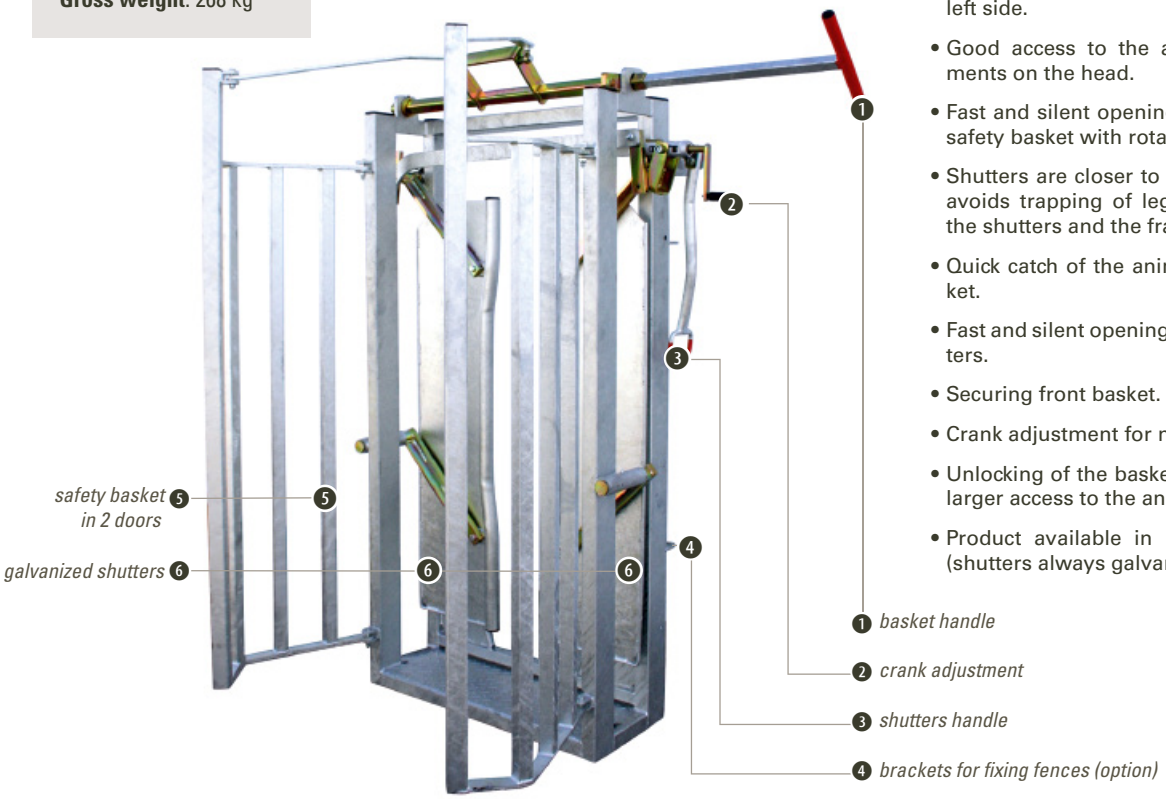
- Having a suitable handling equipment is ensuring work safety for you and your employees.
- This saves valuable time!
- The animals, well handled, will be calmer and more relaxed, so you can manipulate and treat them more easily.
- And an animal that stays calm and is well cared for will give you more tender meat and produce more milk.

Improve your **productivity!**

UNIVERSAL HEADGATE PM 93

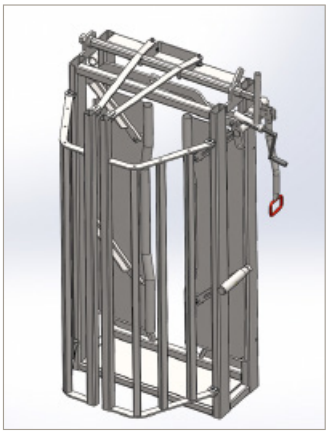
Internal dimensions
width 82 cm
height 180 cm
depth 50 cm

Gross weight: 268 kg



TECHNICAL FEATURES

- Reversible headgate, handles of safety basket and shutters can be fixed on right or left side.
- Good access to the animal for all treatments on the head.
- Fast and silent opening and closing of the safety basket with rotating handle.
- Shutters are closer to the structure, which avoids trapping of legs or head between the shutters and the frame.
- Quick catch of the animal with safety basket.
- Fast and silent opening and closing of shutters.
- Securing front basket.
- Crank adjustment for neck aperture.
- Unlocking of the basket possible to have a larger access to the animal's head.
- Product available in paint or galvanized (shutters always galvanized).



ANIMAL COMFORT

- Silent headgate.
- Fast release of the animal if necessary.
- Less risk of injury.

USER BENEFITS

- Time saving on treatments.
- Work in total safety by a single person.
- Handles can be installed on the right of left side, without return to factory.
- Easier to handle.

OPTIONS

- Muzzle boom lift
- Manual or Pneumatic scoop head up
- Pneumatic automation *(see p.12)*
- Brackets for fixing fences

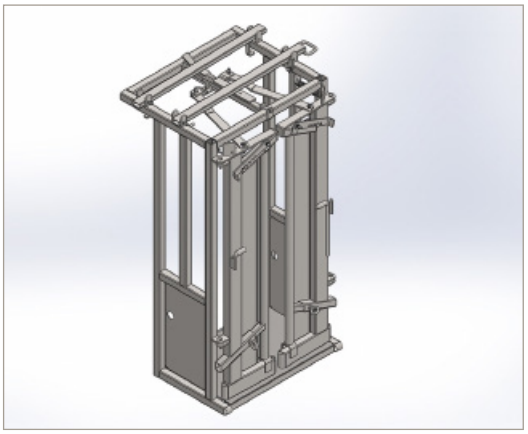
AUTO-LOCKING HEADGATE PM 85

Internal dimensions
width 82 cm
height 170 cm
depth 60 cm

Gross weight: 195 kg

TECHNICAL FEATURES

- For dehorned animals only.
- The animal blocks itself by pushing on the shutters with its shoulders.
- Quick work automautomatism.
- Good access to the front for all treatments.
- Easy adjustable neck aperture.
- Opening lever can be mounted on right or left side.
- Possibility to unlock the system if we don't want to block the animals.
- Possibility to lift the opening lever from a distance using a rope.
- Product available in paint or galvanized.



USER BENEFITS

- Work from a distance: limited movements.
- Work comfort: less handling.
- Fast use: time saving.
- Use by a single person.

OPTIONS

- Muzzle boom lift
- Manual or Pneumatic scoop head up
- Brackets for fixing fences

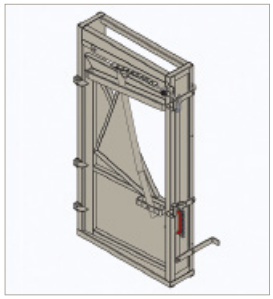
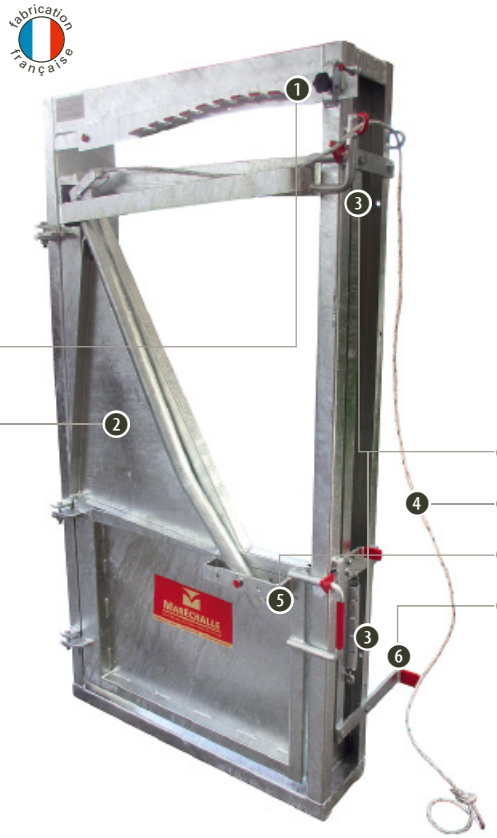
CORNADIS HEADGATE PM 80

Internal dimensions
width 82 cm
height 170 cm
depth 30 cm

Gross weight: 100 kg





TECHNICAL FEATURES

- Headgate to be installed at the end of a corridor.
- Simple closing of the neck aperture with the rope.
- Possibility of blocking various sizes of animals.
- Opening with maneuverable pedal by foot or hand.
- Product available in paint or galvanized.

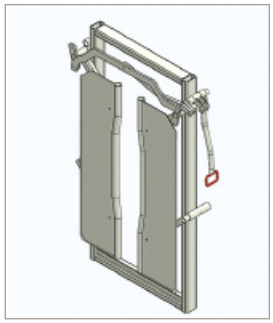
OPTION

Reverse model for door: handle on the left side from a front view

GATE PM 87

Internal dimensions
width 82 cm
height 170 cm

Gross weight: 130 kg



TECHNICAL FEATURES

- Can be used as a front door, intermediate or back door in a crush or alley.
- This door is mandatory as back door on order of a pneumatic crush, because it avoids pinching animals' legs at the entrance to the crush.
- It is also mandatory as back door on order of crush with suspended weighing system PM 45, because the opening handle of door PM 88 becomes inaccessible with the structure of the suspended weighing.
- Symmetrical central closure.
- Fast and silent opening and closing of shutters.
- Crank adjustment for neck aperture.
- Product galvanized only.
- Reversible gate, the handle can be fixed on right or left side.

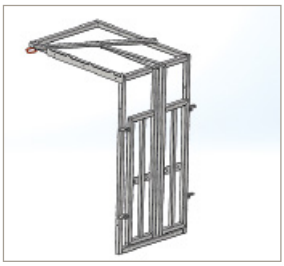
OPTIONS

Back door PM 87 in replacement of the door PM 88 (mandatory for an order of a pneumatic crush or crush with suspended weighing)

Brackets for fixing fences

DOUBLE-LEAF DOOR PM 88

Internal dimensions
width 82 cm
height 170 cm



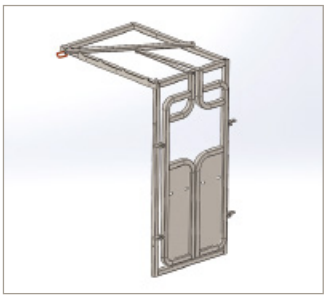
TECHNICAL FEATURES

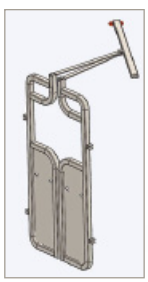
- Opening and closing of shutters fast and quiet.
- To be installed as a back door on a handling crush or mobile corridor.
- Standard back door on all of our handling crushes and mobile corridor.
- Product available in paint or galvanized.

OPTIONS
Reverse model for door: handle on the left side from a front view
Brackets for fixing fences
Frame

INSEMINATION DOOR PM 82

Internal dimensions
width 82 cm
height 170 cm





TECHNICAL FEATURES

- Allows to do an insemination without opening the door and thus safely.
- To be installed on a handling crush or mobile corridor.
- Or in replacement of the double-leaf back door PM 88.
- Product available in paint or galvanized.

OPTIONS
Reverse model for door: handle on the left from a front view
Insemination back door in replacement of the door PM 88
Brackets for fixing fences
Frame

SLIDING DOOR PM 81

Internal dimensions
width 82 cm
height 170 cm

TECHNICAL FEATURES

- Lateral sliding on the side of your choice.
- Door on bearings.
- Light and silent.
- To be installed on a crush or a mobile corridor, or as an intermediate door inside a fixed alley.
- Product available in paint or galvanized.

OPTION

Sliding door PM 81 in replacement of the back door PM 88

BACKSTOP DOOR PM 89

Internal dimensions
width 82 cm
height 170 cm

Gross weight: 60 kg

TECHNICAL FEATURES

- To be installed as an intermediate door inside a fixed corridor.
- Can also be installed as a back door in a cattle crush.
- The animal pushes on the flaps to go through, but it cannot move back because the flaps go back to a stop toe.
- Product galvanized only.

OPTIONS

Backstop door PM 89 in replacement of the back door PM 88

Brackets for fixing fences

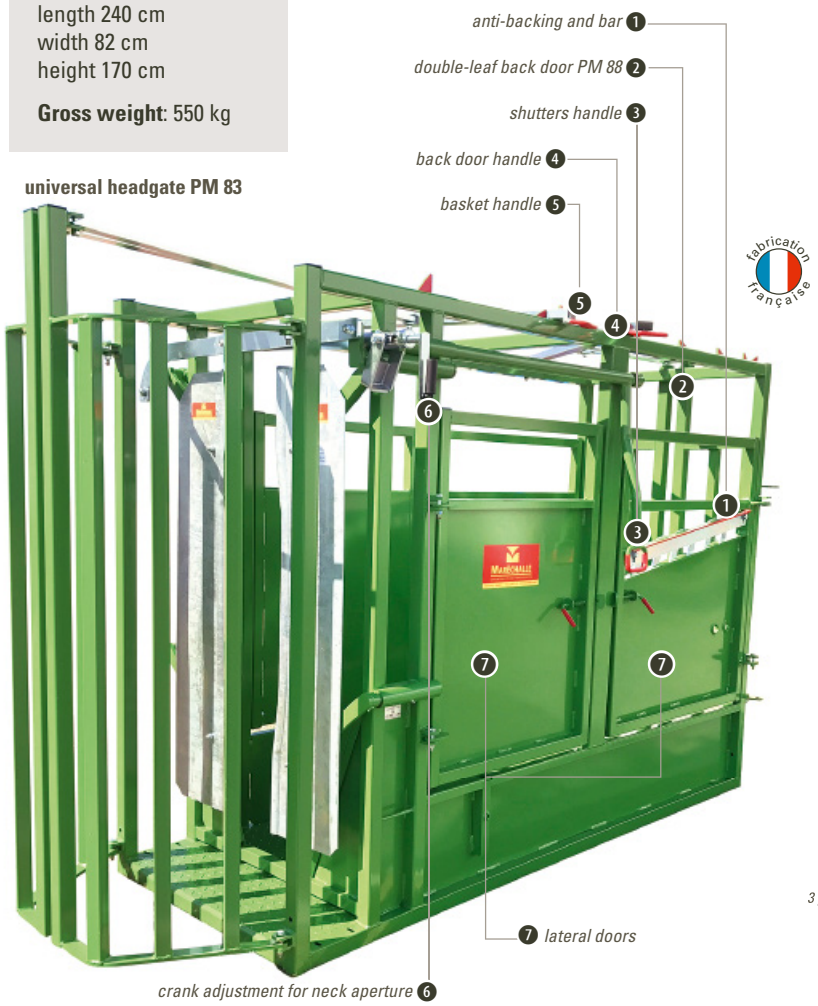
MULTIFUNCTION CRUSH ALL IN ONE PM 2400

> > > handling - hoof trimming - weighing

Internal dimensions
length 240 cm
width 82 cm
height 170 cm

Gross weight: 550 kg

universal headgate PM 83

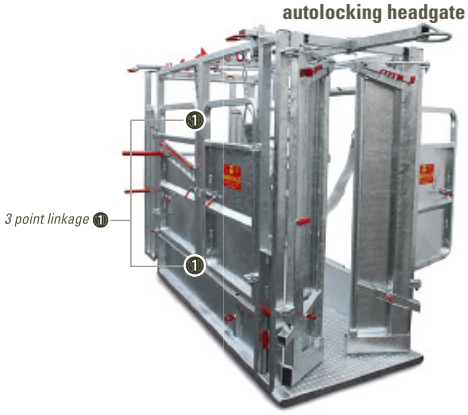


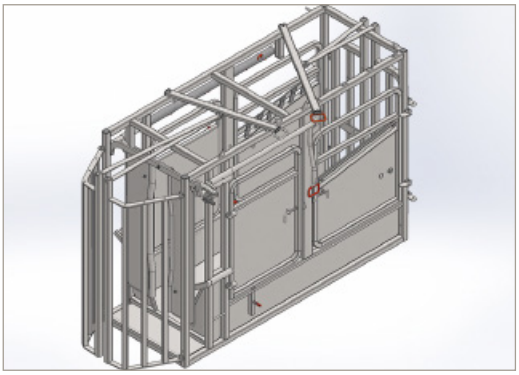
TECHNICAL FEATURES

- Front gate to choose from: PM 83, PM 85 or PM 80.
- 4 lateral doors for a total access to the animal.
- Three-point linkage to be hooked by tractor.
- Adaptable to all cattle breeds.
- Good stability of the animal.
- Product available in paint or galvanized.

cornadis headgate PM 80

autolocking headgate PM 85





ANIMAL COMFORT

- Good hold of the cow.
- Safety and welfare of the animal.

USER BENEFITS

- Protection against bumps legs.
- Handling and cares in total safety.
- Fast operation.

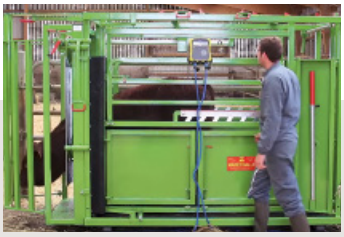
SQUEEZE CATTLE CHUTE PM 2800

Internal dimensions
length 270 cm
width 82 à 40 cm
height 180 cm

Gross weight: 750 kg

TECHNICAL FEATURES

- Headgate to choose from PM 93 (with safety basket and central closing) or PM 85 (auto-locking).
- Width-adjustable sides for all sizes of animal.
- 4 positions from 40 cm to 82 cm inside.
- Total immobilization of the animal.
- Silent chute with rubber mat, the animal remains calm.
- Build-up security and animal welfare.
- Product available in paint or galvanized.
- Chute **with reversible handles** (left or right).



USER BENEFITS

- Time saving, the animal cannot turn around inside the handling crush.
- Work safety, an animal well-maintained is a calmer animal.
- Optimization of time spent on animal care.

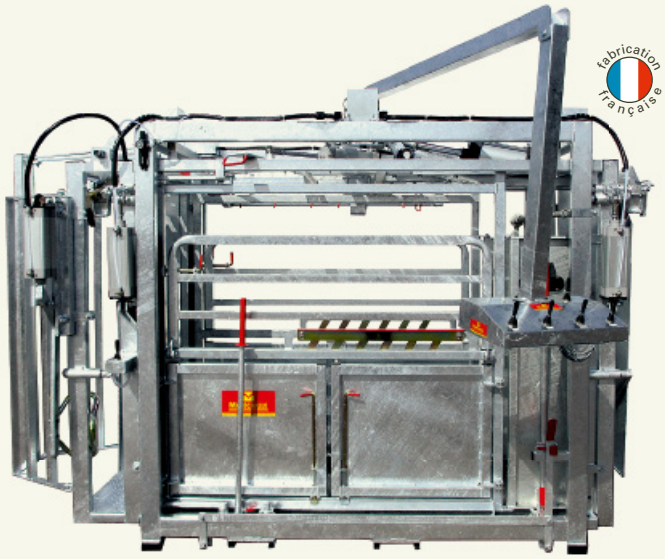
PNEUMATIC AUTOMATION

1ST POSSIBILITY

Pneumatic cylinders controlled by distributors on a fixed support, or on a swivel bracket on the whole side of the crush.

Fixed support with 1 joystick

Swivel bracket



2ND POSSIBILITY

Electro-pneumatic cylinders with control box and remote control to activate doors and options from a distance.

Control box

Remote control

PRODUCT ADVANTAGES AND BENEFITS

- Ideal for passing many animals.
- Pneumatic cylinders replacing the manual handles to control doors' openings and closings.
- The cylinders also control width reducer of the crush PM 2800, and other options as scoop head up and pendulum backstop.
- System allowing the user to position away, so the animal is not frightened by the presence of humans.
- Rapidity and work comfort, avoids repetitive movements and musculoskeletal disorders.
- Quiet system, the animal remains quiet and well-maintained.
- Time saving and better productivity for the farmer, and less fatigue for the user.

TECHNICAL FEATURES

- Connection to an air compressor (not supplied) of at least 200 liters.
- Working pressure: 6 bars
- Flow control to accelerate or slow down the doors' opening and closing.

Our advice: the compressor must be within 30 m of the crush, or be equipped with an air dryer.

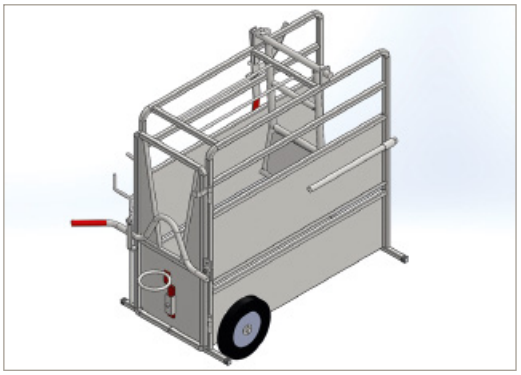
CALVES DEHORNING BOX PM 170

Internal dimensions
length 110 cm
width 40 cm
height 108 cm

Gross weight: 110 kg

TECHNICAL FEATURES

- Total immobilization of the animal.
- Good hold on the calf.
- Dehorn different sizes of calves.
- Easily transportable, offers high stability and good resistance.
- Rubber mat.



ANIMAL COMFORT

- Without noise, keep calves calm.
- Well-maintained in the crate, the animal feels safe.
- No risk of slipping or hanging.

USER BENEFITS

- Time saving and productivity, the dehorning can be done by only one person.
- Work safely.

PORTABLE HANDLING ALLEY PM 3000

Internal dimensions
length 650 cm
width 82 cm
height 170 cm

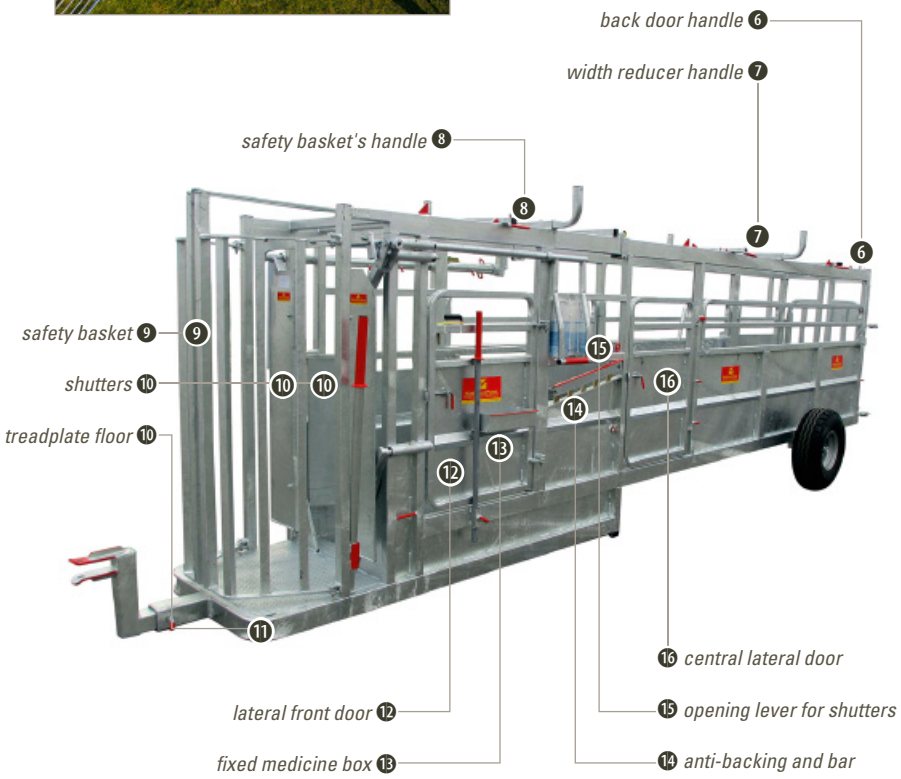
Gross weight: 950 kg

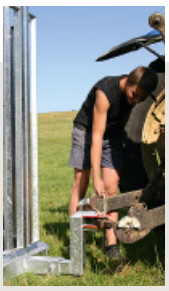
TECHNICAL FEATURES

- Designed for doing all treatments outside.
- Total immobilization of the animal.
- Avoids the use of footboard.
- Width reducer preventing the calves to turn around.
- Easy to move by tractor with the arrow hitch.
- Entry facilitated for the animals through the lateral rear door.
- The animal follows other animals in the alley (up to 3 animals can be fitted inside).
- Transport of 16 panels possible with the 2 sliding tubes.
- Double-leaf back door PM 88.
- Product available in paint or galvanized.

OPTIONS

Reverse model: handles on the left from a front view
SUPER model: hoof trmming equipment
Manual or Pneumatic scoop head up
Rubber mat
Muzzle boom lift





ANIMAL COMFORT

- For all care in grazing.
- Easy and quick adjustment.
- For all animal sizes.

USER BENEFITS

- Save time at the installation: set it down and it is ready to be used!
- Work safety, an animal well-maintained is a calmer animal.
- Increase efficiency and speed through the rear side door and width reducer.

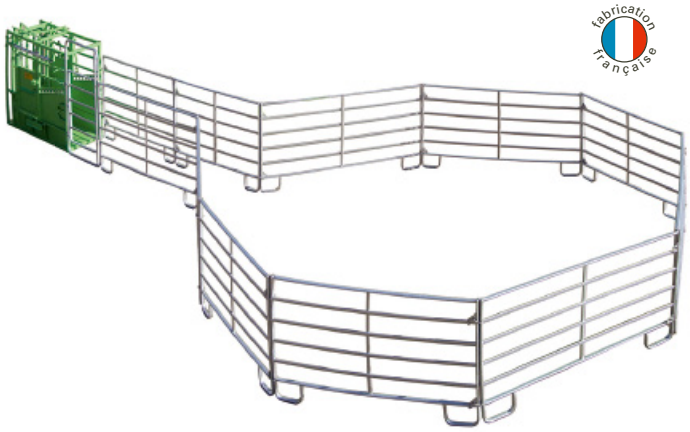
HANDLING PANELS

Dimensions
length 240 cm
height 157 cm
Gross weight: 30 kg

OR
length 300 cm
height 157 cm
Gross weight: 34 kg



TECHNICAL FEATURES

- Light handling panels for cattle and horses.
- Facilitate the access to the handling crush, portable alley or headgate.
- Good support and stability through the assembly by chains.
- Easily movable by foot skis.

OPTIONS
Adaptable opening passage
Transpanel
Pack transpanel: includes transpanel, 16 panels 2.40 m, and 2 adaptable passages

DESCRIPTION

- Vertical crossover reinforcement.
- Distance between each tube: 21 cm.

USER BENEFITS

- Work comfort: light to carry.
- Transportable by one person.
- Quickly and easy assembly by just one person.

HOOF TRIMMING

GET A HOOF TRIMMING CRUSH IN ORDER TO TREAT FASTER!

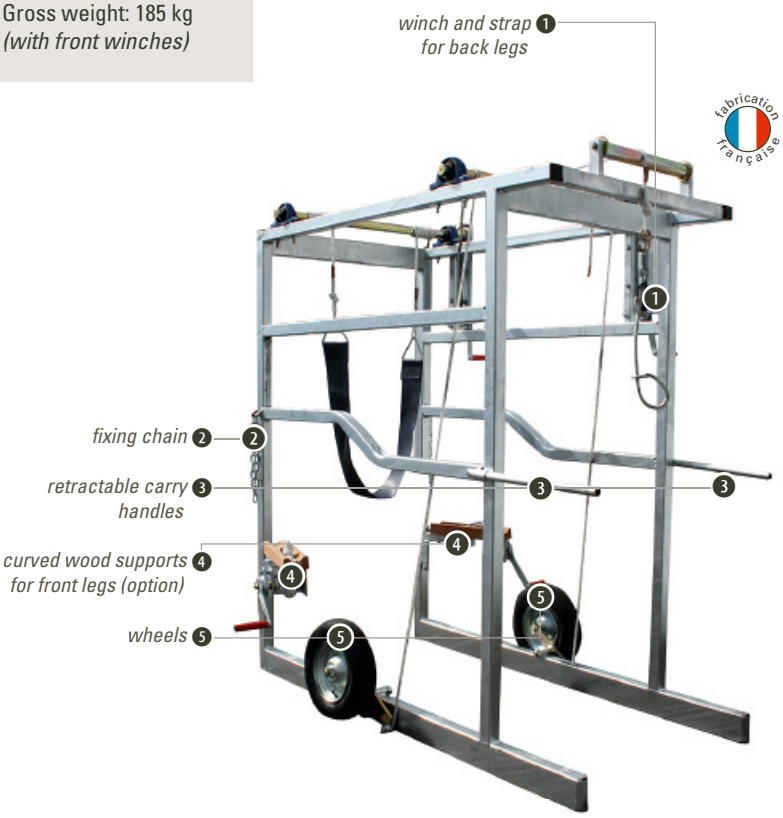
- Trimming is an important and effective care to apprehend limping, which today represents the cattle's third pathology.
- Preventively trim claws avoids limping.
- A poorly treated or late treated limping can result in a significant financial loss to the herd (decreased production, growth retardation, delayed reproduction, veterinary costs, etc.). This is why we must act quickly on a painful leg.
- A hoof trimming crush is therefore essential to work safely and provide the necessary care for your animals while facilitating work.

Decrease limping is
to increase your profits!

SLIDE-OVER TREATMENT CRUSH PM 4200

Internal dimensions
length 205 cm
width 82 cm
height 175 cm

Gross weight: 185 kg
(with front winches)



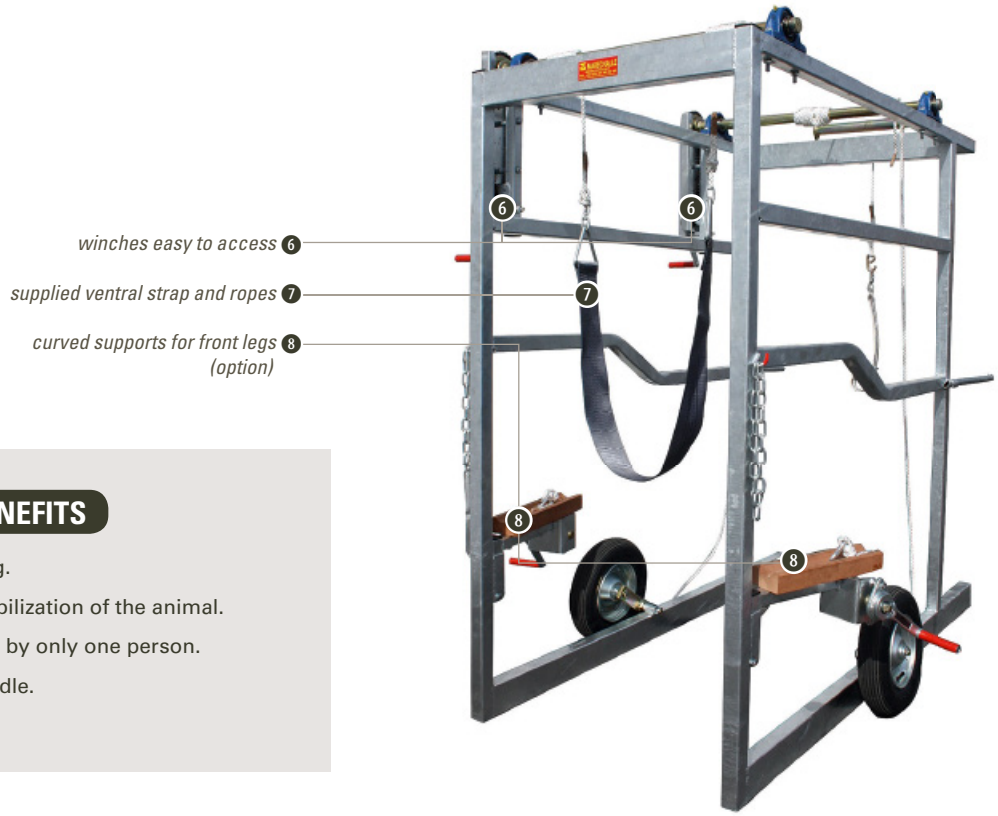
TECHNICAL FEATURES

- Light crush.
- Reinforced frame.
- Easy to move with wheels to be able to bring to the self locks.
- Easy handling, the animal is less stressed.
- Hoof trimming for front legs possible with option of wood supports with rope.
- Product galvanized only.

OPTIONS

2 curved wood supports with ropes for front legs hoof trimming

Medicine box



USER BENEFITS

- Time saving.
- Total immobilization of the animal.
- Work safety by only one person.
- Easy to handle.

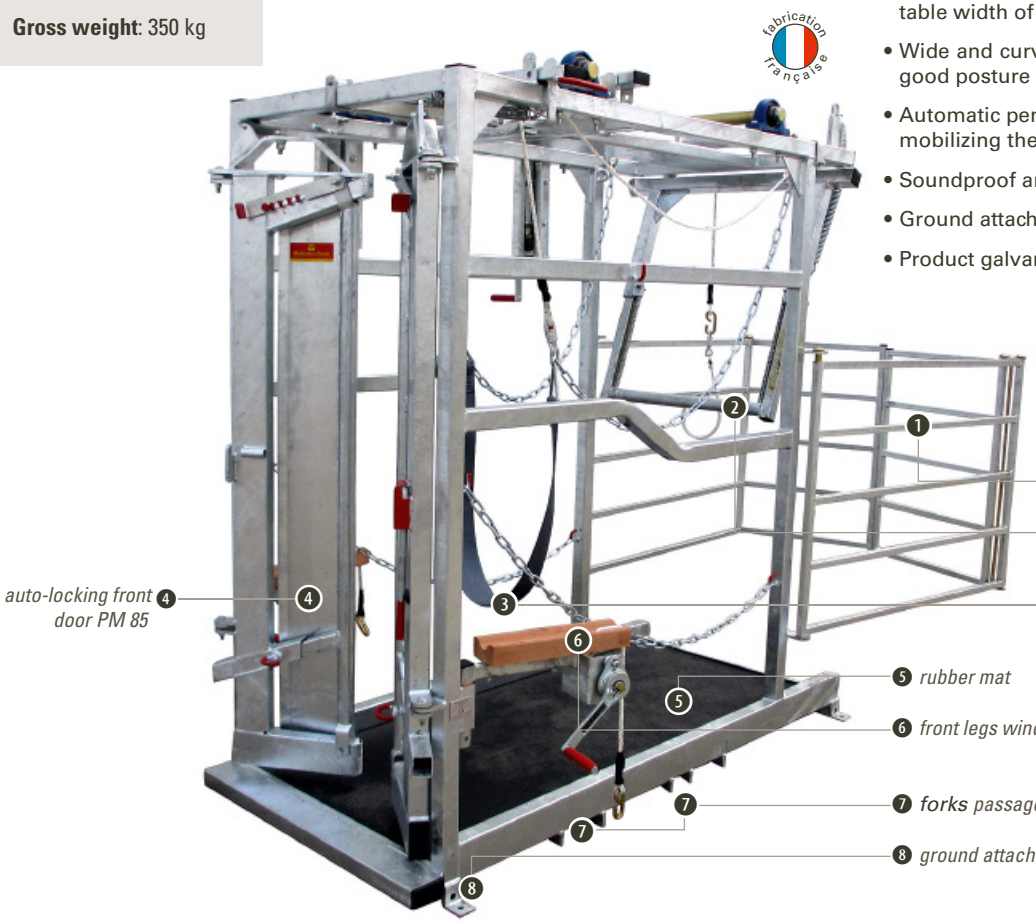
MANUAL HOOF TRIMMING CRUSH PM 4300

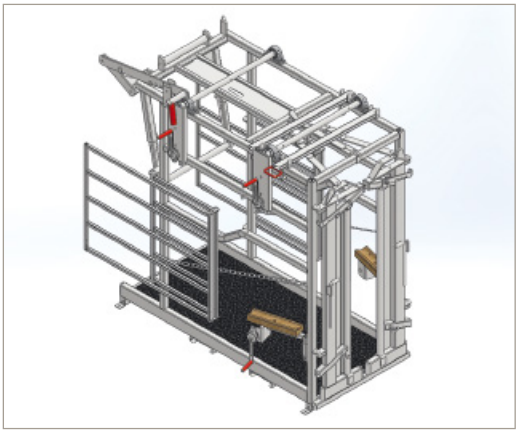
Internal dimensions
length 190 cm
width 82 cm
height 175 cm

Gross weight: 350 kg

TECHNICAL FEATURES

- Auto-locking front door PM 85 with adjustable width of the shutters.
- Wide and curved support for front legs for good posture and total immobilization.
- Automatic pendulum backstop system, immobilizing the animal.
- Soundproof and anti-slipping rubber mat.
- Ground attachments.
- Product galvanized only.





ANIMAL COMFORT

- Fast handling, the animal is less stressed.
- Rubber carpet 20 mm thick, limiting noise and slips.

USER BENEFITS

- Hoof trimming less tiring because no effort to lift the animal's feet.
- Better protection of the farmer with pendulum backstop.
- Total immobilization of the animal, easy grip of the shank.
- Work in total safety by one person only.

OPTIONS

Medicine box

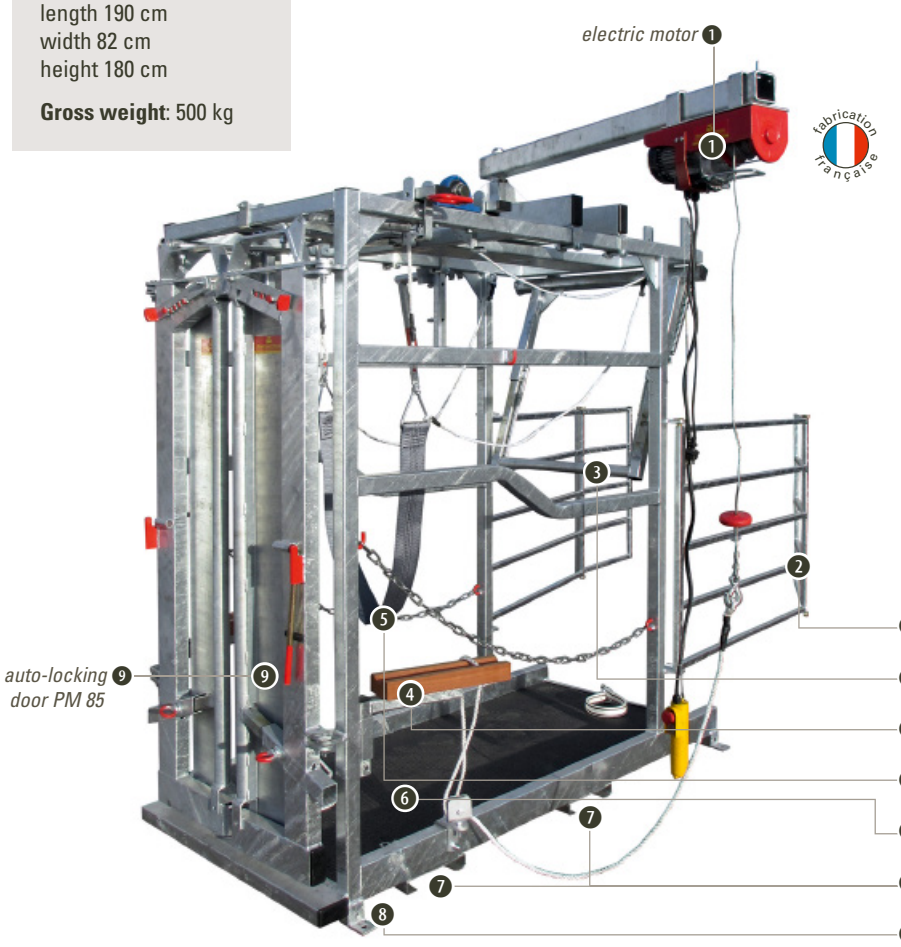
Three-points forks PM 30

ELECTRIC HOOF TRIMMING CRUSH WITH 1 MOTOR PM 4400

> > > for frequent trimming from 30 cows

Internal dimensions
length 190 cm
width 82 cm
height 180 cm

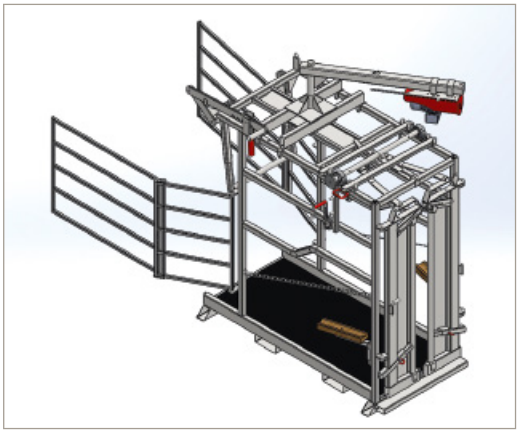
Gross weight: 500 kg



2 *4 guiding gates*
3 *pendulum backstop with progressive tightening*
4 *wooden supports for front legs*
5 *ventral strap*
6 *rubber mat*
7 *forks passage*
8 *ground attachments*

TECHNICAL FEATURES

- 1 electric motor on rotating arm to lift front and back legs effortlessly.
- Auto-locking front door PM 85 with adjustable width of the shutters.
- Wide and curved support for front legs for good posture and total immobilization.
- Automatic pendulum backstop system, immobilizing the animal.
- 1 ventral strap with manual winch to hold the animal.
- Soundproof and anti-slipping rubber mat.
- Ground attachments.
- Product galvanized only.



ANIMAL COMFORT

- Fast handling, the animal is less stressed.
- Rubber carpet 20 mm thick, limiting noise and slips.

USER BENEFITS

- Hoof trimming less tiring because no effort to lift the animal's legs.
- Better protection of the farmer with pendulum anti-backing.
- Total immobilization of the animal, easy grip of the shank.
- Work in total safety and by one person only.

ELECTRIC HOOF TRIMMING CRUSH WITH 6 MOTORS PM 4600

> > > for frequent trimming and caresfrom 40 cows

Internal dimensions
length 190 cm
width 82 cm
height 180 cm

Gross weight: 620 kg

NEW

TECHNICAL FEATURES

- Over-sized motors 1600 Watts/motor and 1500 kg lift.
- 2 motors to lift front legs on each side, 2 motors for ventral strap, 1 motor to lift back legs, and 1 motor to operate pendulum backstop.
- Electrical controls near each workstation.
- Auto-locking front door PM 85 adjustable at the neck.
- Wide and curved front leg supports allowing good hold of the leg.
- Guides for back legs to hold them on the backstop.
- Connection 220 V.
- Electrical outlets and spotlight.
- Product galvanized only.

ANIMAL COMFORT

- Fast handling, the animal is less stressed.
- Rubber carpet 20 mm thick, limiting noise and slips.

USER BENEFITS

- Hoof trimming less tiring because no effort to lift the animal's feet.
- Time saving with electric motors.
- Better protection of the farmer with pendulum backstop.
- Total immobilization of the animal, easy grip of the shank.
- Work in total safety and by one person only.
- Better techno-economic results, less trimmer costs.

TREATMENT BOX FOR HORSES PM 2007

Internal dimensions
length 220 cm
width 82 cm or 92 cm
height 220 cm

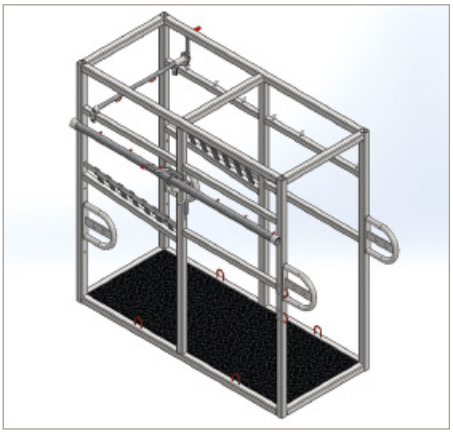
Gross weight: 270 kg

TECHINCAL FEATURES

- Designed for hoof trimming and other treatments for horses.
- Good stability and good hold of the animal.
- Control, care, treat hooves.
- Shoeing horses.
- Product available in paint or galvanized.

OPTION

Medicine box



ANIMAL COMFORT

- Good stability on 3 with ventral support.
- Sound absorbing and anti-slip rubber mat, keeps the animal calm and prevent slips.

USER BENEFITS

- Time saving.
- Work safety.

IDENTIFICATION

ELECTRONIC IDENTIFICATION WITHIN EVERYONE'S REACH

- Identify your animals with electronic tags readers and find the history of their cares or weights in few seconds.
- Pair a weighing system with an identification system to allow you to sort more simply and more quickly your animals.
- Follow up in live your animals' informations on your smartphone thanks to devices equiped with Bluetooth.

Computerize data and
optimize your time!

ELECTRONIC EAR TAGS

TECHNICAL FEATURES

- HDX technology RFID ear tag conforms to ISO 11784-11785 standards.
- Female part: HP Ultra HDX electronic button.
- Male part: male button.
- tensile strength of couple male/female before rutpure > 300 N.
- Thermoplastic polyurethane elastomer containing a laser marking agent and a food colorant.
- Head of the female buckle is polyamide.
- The male part's bole tip consists of a sharp insert in ZAMACK covered with a protective layer of zinc.

TECHNICAL FEATURES

- Reads all ISO HDX and ISO FDX-B tags.
- Rugged design, proven for the tough agricultural environment with a IP67 waterproof design.
- Long life battery up to 19 hours, charging in 3 hours.
- Built-in Bluetooth and auto coupling.
- Ear tags reading distance up to 35 cm.
- USB port.
- Date and time display.
- Duplicate checking.
- Animal counter.
- Alert on preselected animals.

IDENTIFICATION

TECHNICAL FEATURES

- Reads all ISO HDX and FDX-B ear tags.
- Option to record tags or send to your weigh scale indicator.
- Bluetooth Class 1 wireless technology to transfer scanned EIDs to weigh scale indicator or other devices up to 100 m away. Automatic pairing/connection to Tru-Test weigh scale indicator, or use the supplied serial communication cable.
- Record scanned tags into session files that can be downloaded. Store up to 20,000 tags in memory.
- Comes with Data Link PC software for Windows, for downloading recorded information and configuring the reader.
- Data Link app for Android smartphones, email session files back to the office.
- Superior read performance:
  - FDX : Up to 1,000 reads per minute
  - HDX : Up to 850 reads per minute
- Read distance up to 1 m for large antenna and up to 700 mm for small antenna.
- Clear and bright display even in bright sunlight, and buzzer when information is read.
- Rugged design and easy to install.
- Either connect to a 12-24 V battery or use the supplied mains power adaptor.
- IP67 waterproof case with double walled construction and rubber corner buffers for extra durability.

EID HANDHELD READER

Dimension
height 22 cm

Weight: 300 g

TECHNICAL FEATURES

- Reads all ISO HDX and ISO FDX-B ear tags.
- Wireless connection: Bluetooth Class 2 wireless module. Pair to other Bluetooth devices such as a weigh scale indicator or printer.
- Built-in memory: 4,000 scanned tag memory, recording groups on animals in session files.
- Battery life up to 8 hours. Recharge using supplied 5 V adaptor through USB Mini-B connector.
- Connect to PC using supplied USB Series A to Mini-B Cable.
- Comes supplied with Data Link for PC software to download recorded information.
- Read performance:
  - FDX : up to 1,000 reads per minute
  - HDX : up to 830 reads per minute.
- Read distance: FDX & HDX up to 300 mm.
- Compact and light weight 300 g reader is comfortable and easy to use.
- Design for the agricultural environment, IP67 dust and waterproof design.
- Clear feedback with daylight viewable display. Membrane keypad with soft keys. Loud feedback buzzer.

BARCODE SCANNER

Dimensions
height 18,5 cm
lenght 75 cm
depth 14,2 cm

Weight: 385 g

TECHNICAL FEATURES

- Scanner, barcode ear tags reader.
- Built-in Bluetooth to communicate with the weighing indicator.
- Compatible with ID / XR 3000, ID / XR 5000, I 40 and I 45 indicators.
- Superior performance in reading 1D barcodes, regardless of their state.
- Rugged design and IP67 protection.
- Designed to withstand extreme cold, heat and humidity.
- Accessories included: base, power supply and USB cable.

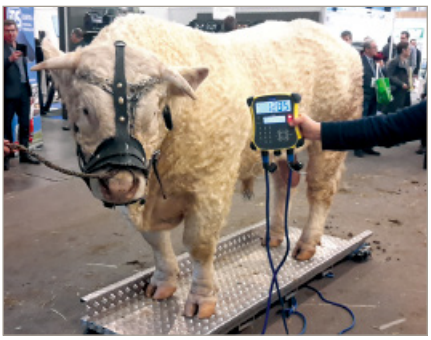
WEIGHING

WEIGH TO WIN



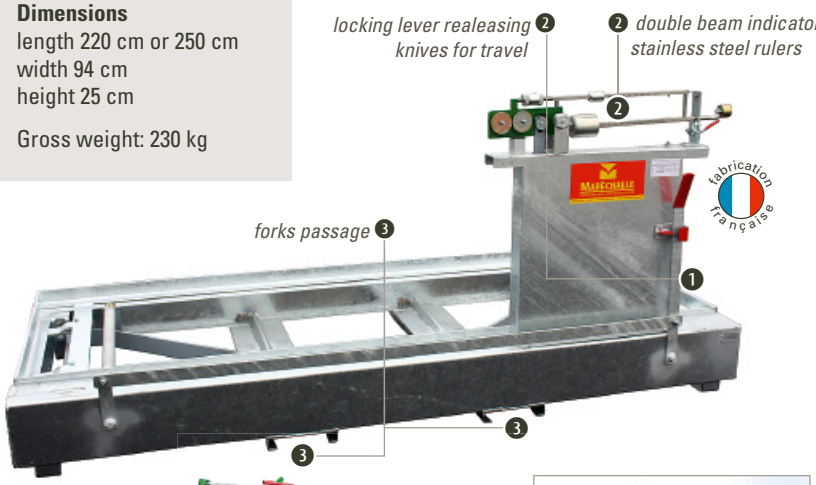
- Follow the growth of your animals to ensure your profitability.
- Optimize your production costs by regularly monitoring weights of your animals.
- Weigh your animals with a consistent and accurate equipment to avoid negative prices, and grow your profits!
- **If you have special requests on particular dimensions or high capacity scales, we can achieve it! Do not hesitate to contact us.**

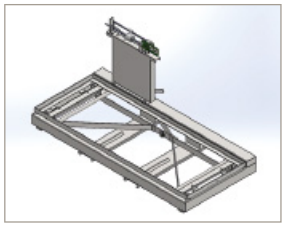
Improve your herd performance!

MECHANICAL WEIGHING FRAME PM 40

Dimensions
length 220 cm or 250 cm
width 94 cm
height 25 cm

Gross weight: 230 kg





TECHNICAL FEATURES

- Angle frame adaptable to all of our cattle crushes.
- Double beam indicator with stainless steel rulers mounted on a removable case.
- Weighing capacity: 1 500 kg / 1 kg.
- Resistance to violent movements of animals.
- Longevity of the weighing system.
- Easy to move through the passage of forks.

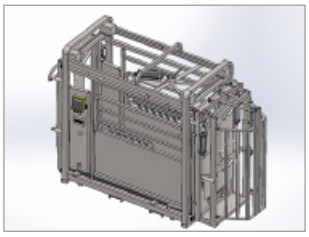
OPTIONS

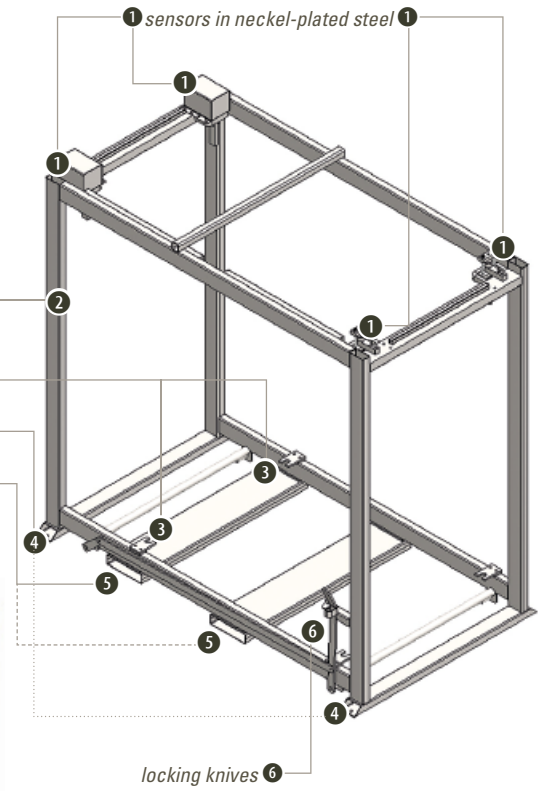
- Extra charge for weighing capacity of 2,000 kg / 1 kg
- Legal metrology
- Three-point forks PM 30
- Verification report, without legal metrology

SUSPENDED ELECTRONIC WEIGHING FRAME PM 45

Dimensions
length 230 cm
width 130 cm
height 235 cm

Gross weight: 180 kg





TECHNICAL FEATURES

- Reinforced external frame.
- Structure with 4 overhead sensors in nickel-plated steel.
- Weigh indicator of your choice.
- For handling crushes PM 2400 and PM 2800.

PRODUCT BENEFITS

- Resistance to violent movements of animals.
- Longevity of the weighing system.
- Weighing on any type of ground.
- For an intensive use.
- Quickly stabilizes even with very lively animals.
- Lasting investment.

OPTIONS

- Legal metrology (only for indicators I 30, I 40 and I 45)
- Printer for indicators of series 3000 and 5000

WEIGHING CAPACITY

- 2,000 kg / 1 kg

GALVA LOAD BARS

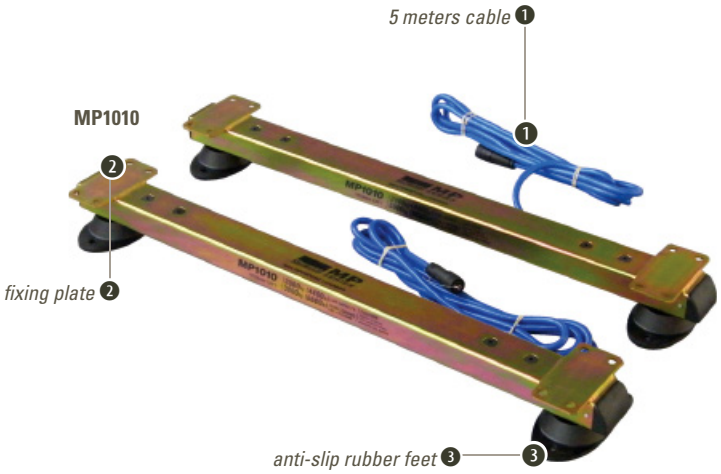
BC100, 1010 mm - weight: 25 kg
BC800, 800 mm - weight: 20 kg
BC600, 600 mm - weight: 16 kg



TECHNICAL FEATURES

- Versatile, can be used in a temporarily or permanent site, easily transported between different weighing sites.
- Compatible with all our electronic indicators.
- Robust and durable over time.
- Resistant to violent movements of animals.
- Specially developed for weighing live animals.
- Reinforced cables to prevent deterioration.
- Rubber feet for better grip and impact protection.
- Water, bad weather and dust resistant.
- Each bar has 2 load cells.
- To install on a firm level surface.
- Weighing capacity : 2,000 kg, multi-step graduation.
- Total resistance: 3,000 kg (1,000 kg tare).

OPTIONS

TECHNICAL FEATURES

- Very robust with 4 stainless steel sensors IP67 protection.
- IP67 waterproof connector.
- 5 m braided shielded cables and anti rodents.
- Stainless steel swivel feet.
- Very robust and durable over time.
- Available in length 600, 800, 1000, 1200, or 1500 mm.
- Compatible with all our electronic indicators.
- Weighing capacity : 2,000 kg, multi-step graduation.
- Total resistance: 3,000 kg (1,000 kg tare).

INDICATOR PM 500

TECHNICAL FEATURES

- IP67 protection, 100% water and dust proof.
- Highly visible display: large 35 mm reflective display with a super bright backlight making it viewable in all conditions, from brightest daylight to darkness.
- Auto Zero: option to ensure any accumulation of animal dirt on the platform or crate is zeroed out.
- Improved weighing, lock onto lively animals even faster.
- Bright red stable light.
- Fine mode: on/off option allows weighing in a finer resolution for lower weights.
- Battery life up to 20 hours of run time.
- 3 hours charging time.
- Auto power off: automatically turns off after 15 minutes of no activity to save the battery.
- Supplied mains power adaptor.
- Operating temperature: from -10°C to +40°C.
- Storage temperature: from -20°C to +35°C.

OPTION

Verification report, without legal metrology

INDICATOR PM 650

TECHNICAL FEATURES

- Wireless or tethered EID reader connectivity, choose between wireless Class 1 Bluetooth communication with EID readers up to 100 m away, or connect via cable.
- Records information against Electronic (EID) and Visual tags. VID numbers can be automatically cross-referenced with their EID match, saving you time and reducing data entry.
- Stores up to 100 weighing sessions and 20,000 records.
- Calculates and displays an animal's daily weight gain since the previous session.
- Capture traits or treatments. Record notes for each individual animal.
- Speeds up weight drafting by displaying direction for up to 3 weight ranges.
- IP67 protection, 100% water and dust proof.
- Large 35 mm reflective display with a super bright backlight makes it viewable in all conditions, from brightest daylight to darkness.
- Auto Zero: option to ensure any accumulation of animal dirt on the platform or crate is zeroed out.
- Bright red stable light.
- Fine mode: on/off option allows weighing in a finer resolution for lower weights.
- Battery life up to 15 hours of run time.
- 3 hours charging time.
- Auto power off: automatically turns off after 15 minutes of no activity to save the battery.
- Supplied mains power adaptor.

INDICATOR ID 5000

NEW

TECHNICAL FEATURES

- Built-in Bluetooth and wifi.
- Bluetooth wireless interface up to 100 m.
- Color display with screen clarity in even the brightest sunlight.
- Adapts to any RFID identification system and communicates live on smartphone and computer.
- Calculates the average daily weight gain.
- Stores up to 250,000 records in 250 weighing sessions
- Track performance through calculating and visualising an animal's weight gain.
- Up to 5-way drafting by weight, weight gain and single criteria.
- Pre-loaded common setups or save own favourite setups to easily switch between jobs.
- Quickly transfer information through your mobile device (Android or Apple), USB memory stick or computer (Microsoft Windows).
- Long life 13 hours battery and 5 hours charging time.
- Water, dust and shock proof IP67 case.

WEIGHING PLATFORM PM 42

Dimensions
length 220 cm
width 80 cm

Gross weight: 55 kg

TECHNICAL FEATURES

- **Compatible with any indicator to choose (not included).**
- Aluminium platform with load bars 800 mm.
- Lightweight and easy to move.
- To install on a stable, level surface. Can also be installed in a handling alley.
- Resistance to violent movements of animals.
- Good protection against moisture and dust.

WEIGHING CAPACITY

- 2,000 kg / 1 kg

WEIGHING PLATFORM PM 42 FOR HORSES

Dimensions
length 200 cm
width 100 cm
height 10 cm

Gross weight: 60 kg

TECHNICAL FEATURES

- **Compatible with any indicator to choose (not included).**
- Lightweight aluminum platform with rubber mat.
- On wheels and with a handle for easy transfer.
- Platform on 4 sensors with swivel feet.
- Height 10 cm well adapted to horses.
- To install on a stable, level surface.

WEIGHING CAPACITY

- 1,500 kg / 1 kg

WEIGHING PLATFORM PM 43

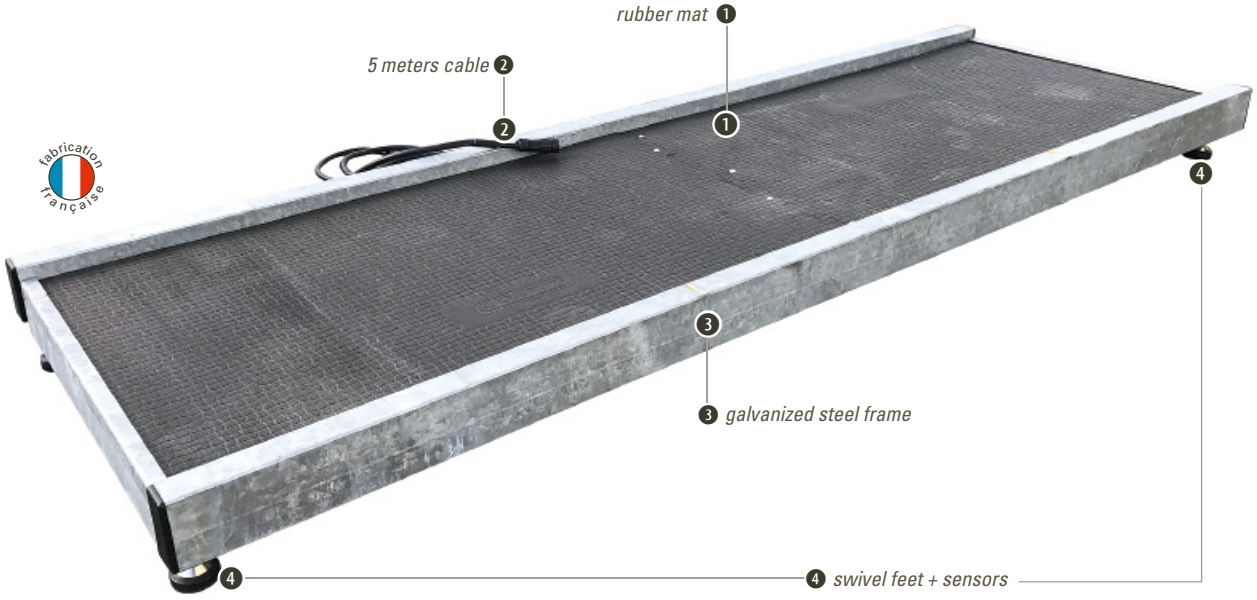
Dimensions
length 245 cm
width 80 cm

Gross weight: 140 kg

WATCH
OUR VIDEOS ON
www.marechalle-pesage.com

TECHNICAL FEATURES

- **Compatible with any indicator to choose (not included).**
- Multifunction electronic weighing platform.
- For various types of weighing: cattle, big bags, pallets etc.
- Galvanized weighing platform with 4 sensors with swivel feet.
- Non-slip and sound absorbing rubber mat.
- Can be installed in a handling alley.



OPTION

Legal metrology (only for the indicators I 30, I 40 and I 45)

WEIGHING CRATE PM 120

Internal dimensions
length 110 cm
width 40 cm
height 80 cm

Gross weight: 110 kg

TECHNICAL FEATURES

- **Compatible with any indicator to choose (not included).**
- Weighing crate especially designed for small animals.
- Easily movable in the farm through the axle.
- Access on the top of the animal.
- Folding front and rear doors. Fast and easy opening and closing.
- Product available in paint or galvanized.

ANIMAL CONFORT

- Without noise and with opaque sides, you keep your animals more serene.
- No risk of slipping thanks to the rubber mat.

WEIGHING CAPACITY

- 300 kg / 100 g

WEIGHING CRATE PM 200

Internal dimensions
length 150 cm
width 50 cm
height 110 cm

Gross weight: 230 kg

TECHNICAL FEATURES

- Mechanical weighing crate with double beam and suspended weighing mechanism.
- or hybrid weighing crate with mechanical overhead system and electronic indicator of your choice (not included).
- Longevity of the weighing system.
- Access to the top of the animal for cares or ultrasounds.
- Access to the animal's teats on the side.
- Easy to move in the farm with retractable carry handles.
- Fast and easy doors' opening and closing.
- Front and back revoolving doors, with interchangeable direction.
- Product galvanized only.

ANIMAL CONFORT

- Without noise and with opaque sides, you keep your animals more serene.
- No risk of slipping thanks to the rubber mat.

AUTO-WEIGHING CRUSH PM 6000 LIBERTY

Internal dimensions
length 300 cm
width 82 cm
height 190 cm

Gross weight: 750 kg

WATCH
OUR VIDEOS ON
www.marechalle-pesage.com

TECHNICAL FEATURES

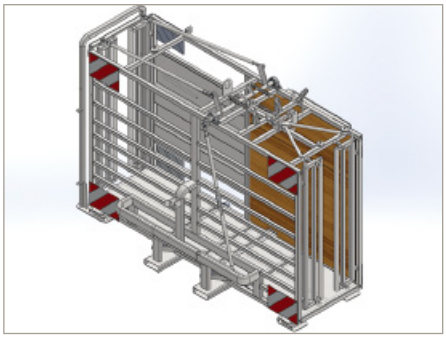
- Weighing crush operating in complete autonomy.
- Weighing without stopping thanks to the indicator WOW XR 3000.
- Weights auto recording with numbers of electronic ear tags.
- RS 232 and USB cables for data transfer to your computer.
- The weighing crush can be used outdoors or in stalls.
- Easy to move with forks passage and with three points linkage.
- Possibility to add a solar panel for extended battery life.

OPERATION

First: Entrance into the crush
The front door is closed, the back door is open. The animal comes in and, by stepping on the pedals of the floor, activates the closure of the back door.

Second: the animal is weighed and identified
Crossing the crush, the animal is identified with EID panel reader, and at the same time weighed by the indicator WOW XR 3000. This indicator is able to stabilize and record weight without the animal has to pause for a time on the scale.

Third: Exit
To exit the crush, the animal pushes on the front flaps' door and therefore activates the opening of the front and back doors. Once the animal is out, the front door closes down. The crush is back in standby position.



PRODUCT BENEFITS

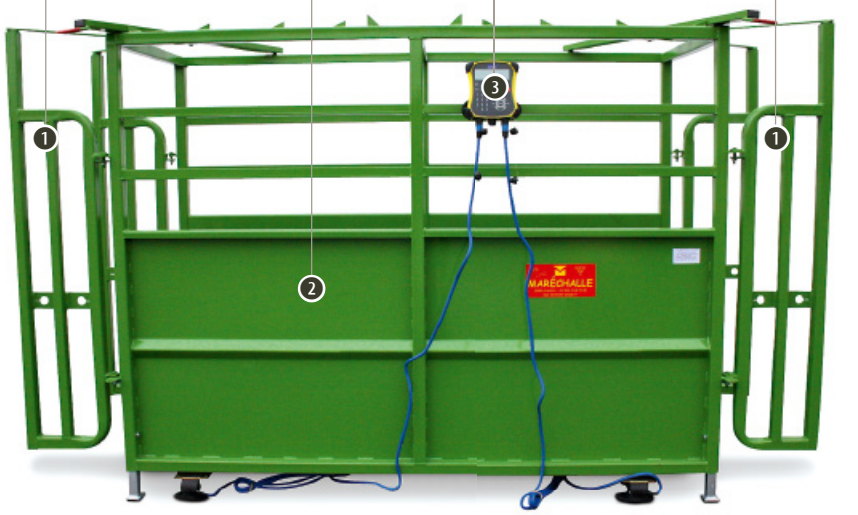
- The purpose of this weighing crush is to have a very precise control of the weight of your herd.
- No intervention or human presence, so the animal is never stressed.
- Takes away the burden of weighing.

OPTIONS
Solar Panel
Three-parts gate with 1 including 2 backstop doors
Verification report, without legal metrology

WEIGHING CRUSH PM 61

Internal dimensions
length 240 cm
width 82 cm
height 170 cm

Gross weight: 500 kg



crush for horses

TECHNICAL FEATURES

- Mechanical weighing with angle frame PM 40.
- or electronic weighing crush with load bars and indicator of your choice (not included).
- Double-leaf front and back doors PM 88.
- Easy to move in the farm by three-points linkage.
- Three-points linkage for transfer.
- Checker plate floor.
- Is also suitable for horses with removable raisers.
- Product available in paint or galvanized.

OPTIONS FOR MECHANICAL MODEL

- Extra charge for weighing capacity of 2,000 kg / 1 kg
- Legal metrology
- PM 30 three-points forks
- Locking knives
- Rubber mat
- Verification report, without legal metrology
- Width reducer

OPTIONS FOR ELECTRONIC MODEL

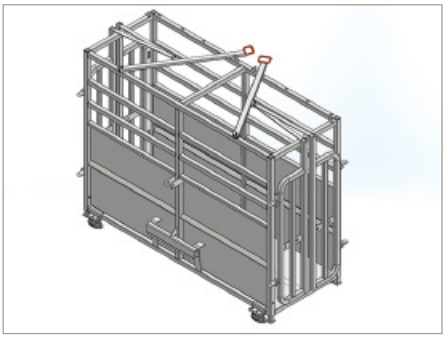
- Removable raisers from 1.70 m to 2.20 m and ordinary doors

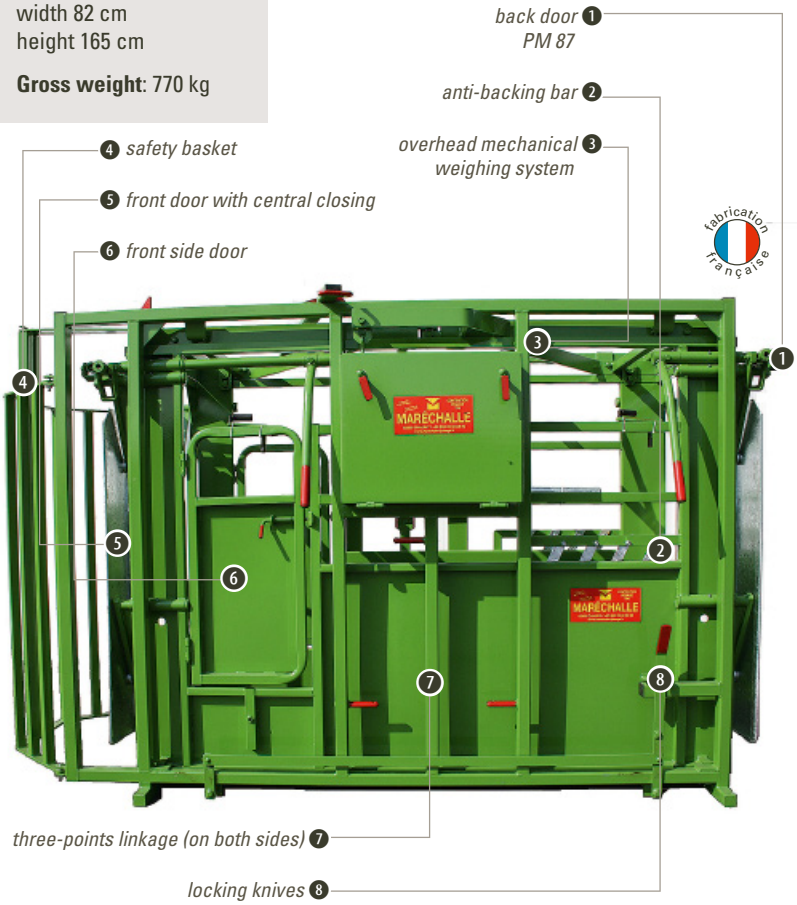


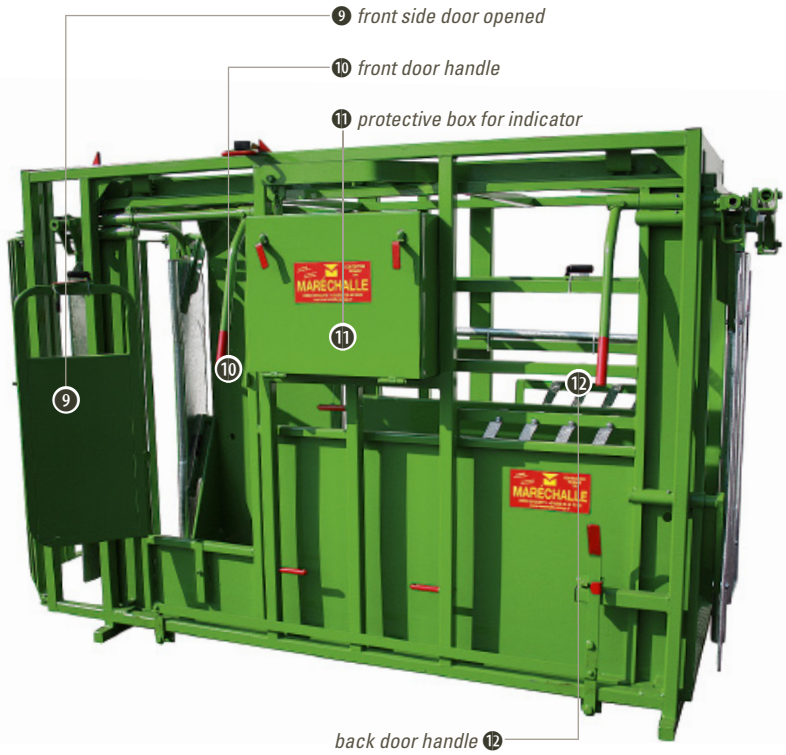
HYBRID WEIGHING CRUSH PM 1600

> > > with possibility of handling

Internal dimensions
length 240 cm
width 82 cm
height 165 cm

Gross weight: 770 kg





TECHNICAL FEATURES

- Weighing mechanism suspended by flanges neutralizing the effect of shocks.
- Knives and pads in special steel, cadmium plated, 4 bits.
- Electronic indicator of your choice (not included) mounted under cover in a box.
- Longevity of the weighing system against shocks and dirt.
- 2 three-point linkages, one reinforced for traveling on the road.
- Locking knives system for transfer.
- Access to the front of the animal for various treatments through the side door.
- Weighing on any type of ground.
- Ideal for an intensive use.
- Product available in paint or galvanized.

WEIGHING CAPACITY

- 2,000 kg / 1 kg

WEIGHBRIDGE

Dimensions
length 14, 16 or 18 m
width 3,00 **or 3,35 m**

NEW

WIDTH 3,35 M

TECHNICAL FEATURES

- Metal modular or concrete weighbridge.
- Weighing indicator with weighbridge application.
- Pit implantation or above ground.
- Weighing capacity: up to 60T / 20 kg.

BENEFITS

- Built to last.
- Easy installation.
- Easy cleaning of the weighbridge.
- Possible certification for commercial transactions.
- Simple installation.

OPTIONS
Metal ramps
Compact ground frame
Wheel guide (anti-fall truck system)
Weighing terminal

DOUBLE BEAM

Extra charge for double beam weighing capacity of 2,000 kg / 1 kg.
Possible on PM 40, PM 41, PM 51 and PM 61.

PRINTER

For indicators :
ID 3000, XR 3000, WOW XR 3000, ID 5000 and XR 5000.

LEGAL METROLOGY

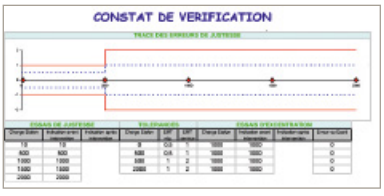
Label for commercial transaction.

- Weighing capacity: 1,500 kg / 1 kg

Ask us for greater weighing capacity.

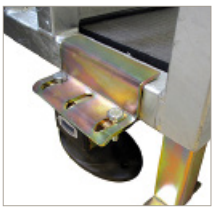
- Only for indicators I 30, I 40, I 45, and mechanical weighing systems.

VERIFICATION REPORT

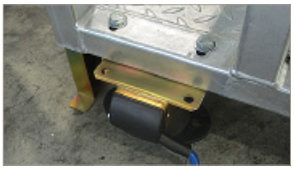


Without legal metrology.

MOUNTING BRACKETS AND CRUTCHES

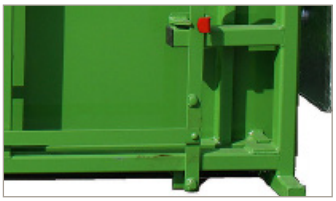


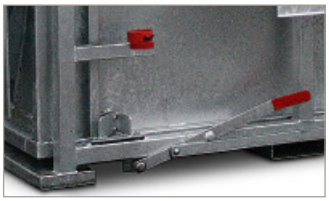
- Brackets and bolts to fix the load bars to the handling crush (brackets if crush manufactured before september 2016).
- Crutches to secure the bars when traveling or to avoid overload when you use only the handling crush without weighing.



KIT 8 BOLTS + 4 CRUTCHES OFFERED when purchase of a crush with load bars.

LOCKING KNIVES

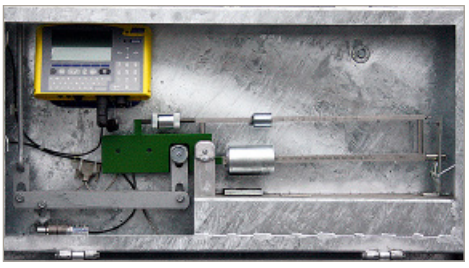




For PM 40, PM 41 and PM 45

To relieve the weighing mechanism when traveling or when not in use.

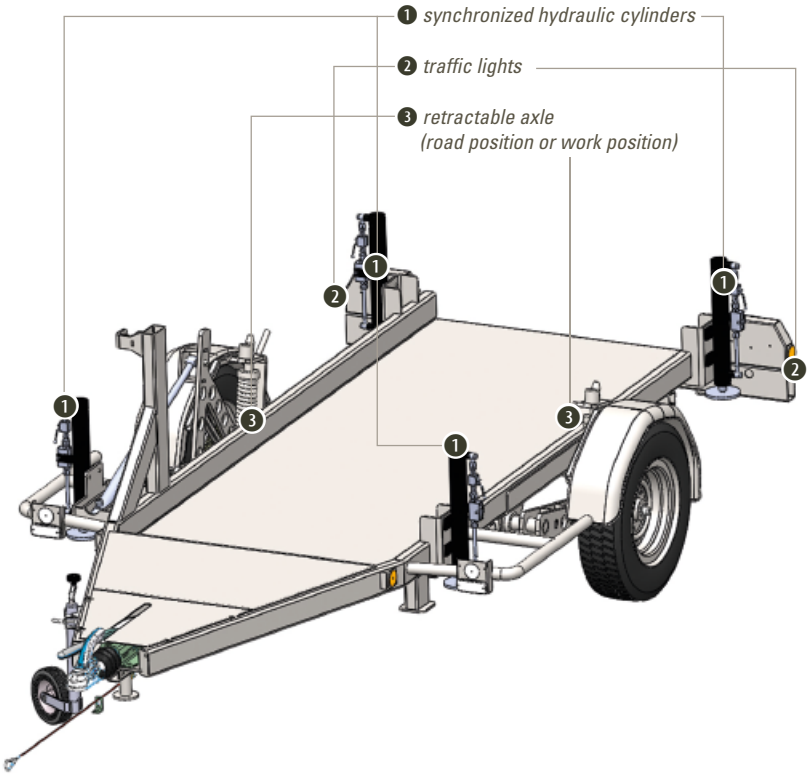
MEASUREMENT CHAIN WITH SENSOR AND ELECTRONIC INDICATOR



To equip a mechanical weighing equipment in electronic weighing with the indicator of your choice.

TRAILER TRAY

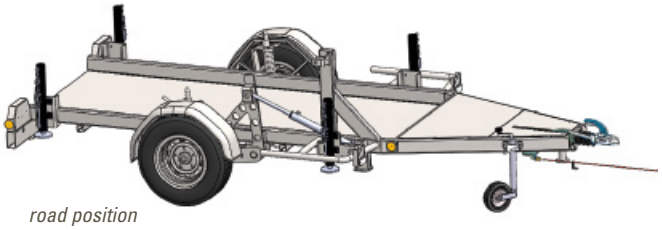
> > > TO TRANSPORT AND USE OUR CRUSHES



NEW available in 2018

TECHNICAL FEATURES

- Trailer tray capable of receiving our handling, hoof trimming and weighing crushes.
- Certified trailer for registration and road transport.
- The tray is equipped with 4 hydraulic cylinders and an electric pump for lowering and lifting.
- When the tray is completely lowered on the ground, it allows an easy entrance of the animals in the crush.
- Animals come in easily, you save time on treatments.



road position

COMMUNICATION

EXHIBITIONS

Every year we are present at many agricultural shows. We are always listening to your comments and thoughts in order to improve our products and move towards a simpler, more convenient and more secure future with you.

GUARANTEES

Our devices are guaranteed for one year from date of shipment against defects of manufacturing or materials. Our responsibility is limited to the pure and simple replacement of defective parts, without any compensation. Shipping costs whatsoever, always remain to the customer.

GALVANIZATION

To prevent corrosion of steel due to prolonged contact with silage, slurry and manure, it is recommended to apply some paint bituminousTR0005 before use, and then periodically, to protect the equipment.

IMPORTANT INFORMATION

- For road travels of equipment such as cattle scales, transpanel, handling crushes and alleys, it is obligatory to respect the existing regulations. MARECHALLE can not be held responsible for accidents.
- For proper use of the products, it is mandatory to regularly check the tightness of equipment and lubricate the elements in motion.
- Despite all the attention we pay when designing our products, with the main objective the optimum wellness of the animal and a maximum level of security, Maréchalle can not be held responsible when an accident occurred with an animal. Knowledge and daily monitoring of animals by farmers remain the most secure solution to prevent accidents.
